OPERATING RESULTS**ENDED DECEMBER 31, 2008**

The results for the second quarter of the fiscal year 2008/2009, ending on December 31, 2008 shows a net loss of 23.83 million Baht or 0.52 Baht per share, while the corresponding results of the previous year showed a net loss of 19.03 million Baht, or 0.42 Baht per share, an increase of 4.80 million Baht or 25.25% due to the following reasons.

1. Net sales decreases from 402.71 million Baht last year to 307.27 million Baht this year, a decrease of 95.44 million Baht or 23.70%. Gross loss increases from 8.75 million Baht or 2.17% to 13.52 million Baht or 4.40%, an increase of 4.77 million Baht or 54.57% due to the rapid and continuous fall of oil price which led to the rapid falling of product selling price while customers delayed their purchase to reduce their loss from higher priced inventory.
2. Selling and administration expense decreases from 17.94 million Baht last year to 16.63 million Baht this year, a decrease of 1.31 million Baht or 7.30%

Moreover, other income decreases from 7.71 million Baht last year to 6.50 million Baht this year, a decrease of 1.21 million Baht or 15.67%. Interest expense increases from 0.05 million Baht last year to 0.18 million Baht this quarter, an increase of 0.13 million Baht or 258.08% due to the exercise of short term loan for working capital purpose, which have subsequently been repaid in full.

Auditor's Report on Review of Interim Financial Statements

To the shareholders and the board of directors of
Asia Fiber Public Company Limited

I have reviewed the balance sheet of Asia Fiber Public Company Limited as at December 31, 2008, and the statements of income, for the three-month period and six-month period ended December 31, 2008, the statements of changes in shareholders' equity and cash flows for the six-month period ended December 31, 2008. These financial statements are the responsibility of the company's management as to their correctness and the completeness of the presentation. My responsibility is to issue a report on these financial statements based on my review.

I conducted my review in accordance with the auditing standards applicable to review engagement. This standard requires that I plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit in accordance with generally accepted auditing standards. According, I do not express an audit opinion on the reviewed financial statements.

Based on my review, nothing has come to my attention that causes me to believe that the accompanying financial statements are not presented fairly, in all material respects, in accordance with generally accepted accounting principles.

The balance sheets as at June 30, 2008 as presented herein for comparative purposes, formed an integral part of the financial statements, were audited by other auditor whose report dated August 20, 2008 expressed an unqualified opinion. I have not performed and other audit procedures subsequent to such report date.

The statements of income for the three-month period and six-month period ended December 31, 2007, changes in shareholders' equity and cash flows of Asia Fiber Public Company Limited for the six-month period ended December 31, 2007, as presented for comparative purposes, formed an integral part of the interim financial statements, were reviewed by other auditor whose report date February 5, 2008. He reported that nothing had come to his attention that caused him to believe that the interim financial statements were not presented fairly, in all material respects, in accordance with generally accepted accounting principles. I have not performed and other audit procedures subsequent to such report date.

2. The basis of interim financial statements and accounting policies

These interim financial statements are prepared in accordance with Thai Generally Accepted Accounting Standard Principles and presented in the set abbreviated format as stipulated under accounting standard no.41 concerning "Interim financial statements" with additional items in the basis financial statements such as the balance sheet, statements of income, the changes in shareholder's equity and the cash flow statements and set out in the maner proscribed under the announcement of the Commercial Registration Department concerning "Compulsory Sub-Entries for Financial Statements" (2008).

The interim financial statements are intended to provide information additional to that Included in the latest auunal financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The company prepares its statutory financial statements in the Thai language in conformity with generally accepted accounting principles in Thailand. The accounting principles used may be different from generally accepted accounting principles in other countries. For the convenience of the readers, the financial statement English version has been prepared by translating the statutory financial statements Thai version in order to meet the requirement of domestic reporting.

3. Significant accounting policies

The interim financial statements are prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended June 30, 2008.

4. Related party transactions

The company had significant business transactions with its associated and related companies (which are shareholders of the company and/or common director). These transactions, which were concluded on the terms and basis stated in the relevant agreement, or as agreed between the company.

4. Related party transactions (Continue)

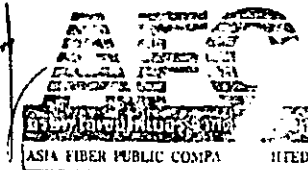

The aging analysis of the above trade accounts and notes receivable from related companies as at December 31, 2008 and June 30, 2008 are as follows :

	(Unit : Thousand Baht)	
	December 31, 2008	June 30, 2008

Less Allowance for doubtful accounts	(71,000)	(71,000)
Net	55,628	56,345

As at December 31, 2008 and June 30, 2008, the company had long-outstanding (more than 6 months) trade accounts receivable from two related companies (Thai Far East Co., Ltd. and T.F.E. Trading Co., Ltd.) totalling Baht 123.43 Million and Baht 126.29 Million respectively (the outstanding balances from these companies as at December 31, 2008 and June 30, 2008 totalling Baht 126.20 Million and Baht 126.22 Million, respectively). The land and construction thereon of such companies are mortgaged as collateral for these receivables. The appraised value based on reports of an independent appraisal firm dated February 27, 2006 amounted to Baht 93.50 Million (at market price) and Baht 56.10 Million (at force sale price). Based on conservative basis, the company provided an allowance for doubtful accounts of Baht 71.00 Million as at September 30, 2008 and June 30, 2008. The management believes that such allowance is adequate to absorb possible losses on the difference of appraised value of these assets and the balance of receivables. However, the management has no policy to seize the mortgaged assets from these receivables for market auction at the present since these receivables still operate in their businesses.

The transactions with the related companies which included in the statements of income for each of the three-month and six-month periods ended December 31, 2008 and 2007 are as follows :

		(Unit : Thousand Baht)

The company appraised its land by following Accounting Standard no. 32 issued by the Federation of Accounting Professions Under The Royal Patronage of His Majesty The King which allows the valuation of property, plant and equipment at appraisal amounts for financial statements reporting purposes.

As at December 31, 2008 and June 30, 2008, the company's land is stated at the appraised value (based on report of an independent appraisal firm dated June 20, 2008 and March 23, 2005, respectively). The excess of appraised value (Baht 295 Million) over cost of Baht 280 Million, respectively, is shown as "Revaluation surplus on land" under "Shareholders' equity" in the balance sheets. The revaluation surplus on land is not available for dividend distribution.

As at December 31, 2008 and June 30, 2008, certain fixed assets with

- a) The original costs totalling Baht 2,156.64 Million and Baht 2,099.5 Million, respectively, are fully depreciated but they are still in active use.
- b) The net carrying values totalling Baht 224.02 Million and Baht 227.53 Million, respectively, are mortgaged / pledged as collateral for credit facilities with financial institutions as discussed in note 11.

11. Bank overdrafts and short-term loans from financial institutions**(Unit : Thousand Baht)**

	December 31, 2008	June 30, 2008
Trust receipt (interest rate at 5.05% p.a.)	-	8,239

As at December 31, 2008 and June 30, 2008, the company has overdraft lines with several local banks totalling Baht 25 Million and Baht 25 Million, respectively. An overdraft line of Baht 25 Million is collateralized by a part of the company's land, machinery and equipment as discussed in note 10.

Under the terms of trust receipts agreements, certain imported inventories have been released to the company in trust of the financial institutions. The company, therefore, is accountable to the financial institutions for the inventories.

12. Other current assets

	December 31, 2008	June 30, 2008
Accrued expenses	14,555	27,981
Others	5,216	8,424
Total	19,771	36,405

13. Statutory reserve

According to the Public Limited Companies Act B.E. 2535, the company is required to set aside to a legal reserve at least 5 percent of net earnings after deducting accumulated deficit brought forward (if any) until the reserve reaches 10 percent of the registered share capital. The statutory reserve can not be used for dividend payment.

14. Financial instruments

Financial risk management policies

The company does not hold or issue derivative instruments for speculative or trading purposes.

Liquidity risk

Liquidity risk arises from the problem in raising funds adequately and in time to meet commitment as indicated in the financial statements. The management, based on the company's current financial position and results of operations and its forecasted financial information, believes that at present the company has no such risk.

Interest rate risk

The interest rate risk is the risk that future movements in market interest rates will affect the results of the company's operations and its cash flows. The company's exposure to interest rate risk relates primarily to its deposits with banks, bank overdrafts, and loans from financial institutions. The company have not used derivative financial instruments to hedge such risk. (The details of overdraft and long-term loans are set out in note 11 to the financial statements).

Foreign currency risk

The company's exposure to foreign currency risk relates primarily to its receivables, payables and loans that are denominated in foreign currencies. The management has regularly considered entering into the derivative agreement to hedge the foreign currency risk.

A summary of un-hedged foreign currency assets and liabilities as at December 31, 2008 and June 30, 2008 is set out below :

	Financial assets (Million)		Financial liabilities (Million)	
	December 31, 2008	June 30, 2008	December 31, 2008	June 30, 2008
U.S. Dollars	0.81	1.8	0.03	0.24
Pound sterling	0.02	0.02	0.002	-

Credit risk

Credit risk is the risk that a counterparty is unable or unwilling to meet a commitment that it entered into with the company. The risk is controlled by the application of credit approvals, limits and monitoring procedures.

The carrying amount of accounts receivable recorded in the balance sheet, net of allowance for doubtful accounts represents the maximum exposure to credit risk.

Fair value of financial instruments

Since the majority of the company and subsidiary companies' financial instruments are short-term in nature or bear floating interest rates, their fair value is not expected to be materially different from the amounts presented in the balance sheets.

A fair value is the amount for which an asset can be exchanged or a liability settled between knowledgeable, willing parties in an arm's length transaction. The fair value is determined by reference to the market price of the financial instrument or by using an appropriate valuation technique, depending on the nature of the instrument.
